	1 Enter in Latin the first and last name separated by a hyphen in the "Name" field	Natalia-Kolotii	Name is valid		
	2 Clean the field "Name"		The field "Name" is empty.		
	3 Enter in Latin the first and last name separated by a space in the "Name" field	Natalia Kolotii	Name is valid		
	4 Clean the field "Name"		The field "Name" is empty.		
	5 Enter in Latin the first and last name in small letters and separated by a space in the field "Name"	natalia kolotii	Name is invalid. The "Name" field gives an error with the message "After space should be a capital letter".		

	6	Clean the field "Name"		The field "Name" is empty.		
	7	Enter in Latin the first and last name in small letters and separated by a hyphen in the field "Name"	natalia-kolotii	Name is invalid. The "Name" field gives an error with the message "After hyphen should be a capital letter".		
	8	Clean the field "Name"		The field "Name" is empty.		
	9	Enter in Latin the first and last name separated by a double hyphen in the "Name" field	Natalia-Kolotii	Name is invalid. The "Name" field gives an error with the message "Hyphen should be one".		

#### Description

**This tc verifies the following requirement:**

- A space or hyphen is allowed in the middle of the name if it is followed by a capital letter, otherwise all spaces or hyphens must be removed in the output. If the capital letter condition is met, but more than one space or hyphen is entered in a row, then only one space or hyphen is left in the output.

**Type of testing:** functional.

#### Environment:

Выпуск Windows 8.

#### Precondition:

Laptop is on.

Laptop has OS windows 8.

Program is installed on laptop.

Program is launched.
